### Statement to access EPUS platform

With this statement, the network user expresses the wish that the gas transmission system operator in Slovenia, the company Plinovodi d.o.o., provide him access to the EPUS platform. By signing this statement, the legal representative of the network user authorizes the company administrator (maximum 2 for each company):

1. Name and surname: \_\_\_\_\_  
E-mail address: \_\_\_\_\_  
Phone number: \_\_\_\_\_,
2. Name and surname: \_\_\_\_\_  
E-mail address: \_\_\_\_\_  
Phone number: \_\_\_\_\_,

to access to all company data provided on the EPUS platform. The authorized administrator of the company assumes responsibility for the careful management of individual users of the company on the EPUS platform (addition, adjustment and deletion). The authorized administrator of the company assumes responsibility for adding content and rights to individual users of the company on the EPUS platform.

In the case that the legal representative of the company wishes to revoke the authorized administrator of the company for access to the EPUS platform or appoint another authorized administrator of the company (maximum 2 for each company), it will notify the transmission system operator by submitting a new Statement to access EPUS platform. The transmission system operator will arrange the change for him, and the change will be valid from the implementation of the change by the transmission system operator.

The network user agrees that the company PLINOVODI d.o.o. is not responsible for possible temporary cessation of operations of the EPUS platform, incorrectness of provisional data on the platform or also temporary unavailability of individual data or data groups. The network user will inform the administrator of the EPUS platform about such events at the e-mail address [epus@plinovodi.si](mailto:epus@plinovodi.si), who will then carry out the necessary activities in order to ensure the proper operation of the EPUS platform within a reasonable time.

Plinovodi d.o.o. will use the personal data obtained by this statement exclusively for concluding a contractual relationship with the network user and for the use of the EPUS platform, until the end of the contractual relationship.
